Nizon Jeorgie Pison II

FULL-STACK DEVELOPER

nizonjeorgiepison66@gmail.com | github.com/jpnj05 | linkedin.com/in/njpison | Philippines

PROFILE

I build fast, tactile web apps: clean interfaces on the surface, steady Node.js behind them.

I am a developer who likes the part of the work where an idea turns into something you can actually click. Most of my time goes into React interfaces, small Node services, and the details that make a screen feel finished: motion, spacing, states, keyboard behaviour.

EDUCATION

University of San Agustin — PRESENT
Iloilo City

Jaro National High School — COMPLETED
Jaro, Iloilo City

Jaro 1 Elementary School — COMPLETED
Jaro, Iloilo City

EXPERIENCE

Independent developer — PRESENT
Personal projects

Designing and shipping my own web and mobile projects end to end: interface, motion, API and deployment. The finished builds live in Work.

SKILLS

FRONTEND	React | JavaScript | HTML | CSS
MOBILE	Flutter | Dart
BACKEND	Node.js | Python | REST APIs
AI	OpenAI | Claude | Gemini | FreeBuff
PRACTICES	Responsive | Accessibility | Motion | Performance | States | Serverless
WORKFLOW	Git | Vite | Vercel | Firebase | Figma

SELECTED WORK

Budget Tracker — Python | HTML | Dashboard

A clean budgeting dashboard: log income and expenses, watch the balance update instantly, and read the month at a glance.

Budgetero — Dart | Flutter | AI
